

LAYGO COMPATIBLE HEAT EXCHANGER GASKETS

APV

SR1

APV is one of the most recognized manufacturers worldwide, especially in the food sector. With its technology in mind, Laygo Gaskets manufactures compatible heat exchanger gaskets.

The SR1 model has a 1 year warranty and is available in all the usual qualities offered by Laygo: NBR, EPDM, Fluorelastomer, HNBR, etc.

With more than 35 years of experience manufacturing compatible gaskets for plate heat exchangers, Laygo has become a benchmark in its sector. The design and manufacture of these gaskets mainly stand out for their watertightness and high performance.

In order to ensure optimum performance, it is advisable to carry out the preventive maintenance that Laygo offers to all its customers in Spain and Portugal. Its main objective is to ensure the effectiveness of its gaskets in the equipment in which they are housed.

Should you need to request a personal budget, please [contact](#) Laygo Gaskets' sales department.
